

The Women's Center for Psychotherapy

OPPORTUNITIES FOR LICENSED CLINICIANS

CONSIDER JOINING A GROUP PRACTICE WITH 30 YEARS OF CLINICAL EXCELLENCE IN PSYCHOTHERAPY

Located on Farmington Avenue in West Hartford, CT, the Women's Center for Psychotherapy (WCP) is a group private practice dedicated to providing psychotherapy with a feminist, humanist, LGBTQ-affirming perspective. We provide a supportive work and treatment environment and offer an array of treatment modalities to diverse populations of all ages. Though we are seeking clinicians to treat clients of various ages, there is a particular need for clinicians to work with children age 13 and younger.

When you join WCP, you will:

Have flexible hours – You have control over your schedule. We ask only for a commitment of at least one evening per week.

Enjoy weekly peer consultation – Our clinicians meet on a weekly basis for professional consultation and support.

Have consistent referrals – WCP is a well-established practice in the area for almost 30 years. Referrals come from insurance companies, doctors, treatment programs, EAP providers and our clients.

Benefit from an insurance billing specialist to help with authorizations, denials and claims.

Have a 24-hour answering service – This service provides a real person to answer calls in an emergency and contact you as needed.

Have clinical coverage - Our clinicians cover for each other for vacations and other absences.

For more information about becoming a part of the WCP team, please contact Mary Ellen Ladd at
